DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on 02/13/2003. It is noted, however, that applicant has not filed a certified copy of the foreign priority application as required by 35 U.S.C. 119(b).

Allowable Subject Matter

2. Claims 1-7 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 1 and dependent claims thereof are allowable at least for the inclusion of the limitations "a first head holding member for holding the thermal head from a back portion thereof, "a second head holding member having a first support shaft in parallel with the thermal head for holding the first head holding member pivotably by the first support shaft", and "wherein the second head holding member is pivotably supported by a second support shaft arranged in parallel with the thermal head and transversely hung rotatably between side walls of the main body frame and the thermal head is constituted to be able to be proximate to and remote from the platen roller by constituting centers of rotation by two shafts of the first support shaft and the second support shaft".

According to the above-described means, an interval between the thermal head and the platen roller is considerably opened by pivoting the first head holding member holding the thermal head centering on the first support shaft and pivoting the second head holding member centering on the second support shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the
